Introduction

Welcome to the Indian Institute of Testing and Calibration Lab, Jaipur, As a leading calibration service company, we pride ourselves on delivering accurate and reliable solutions to meet all your calibration needs. With a team of highly skilled professionals and state-of-the-art equipment,

Our dedicated team of experts has extensive knowledge and experience in calibration procedures and techniques.

We can calibrate a wide array of instruments, including ELECTRICAL, MECHANICAL, TEMPERATURE, PRESSURE, HUMIDITY, TIME, FREQUENCY, SPEED AND DIMENSIONAL TOOLS. We ensure that our calibration processes comply with international standards, giving you the confidence and assurance that your instruments are calibrated accurately.

Choosing Indian Institute of Testing and Calibration Lab, Jaipur, means partnering with a trustworthy and dependable calibration service provider. We believe in building long-term relationships with our clients, and we are dedicated to delivering excellence in every aspect of our services.

Whether you require one-time calibration or ongoing calibration support, our team is here to assist you. We offer flexible service plans and competitive pricing options to cater to your unique needs and budget. With our quick turnaround times and efficient processes, we minimize equipment downtime, allowing you to focus on your core business operations.

Contact us today to discuss your calibration requirements and let us help you achieve optimal performance and compliance for your instruments and equipment.

We Offer

- Competitive Pricing
- Excellent turnaround time (less than 2 days)
- On site/off site calibration services
- Full calibration reports with test uncertainty values
- Pick-up and drop-off delivery services
- 24X7 support

What We Calibrate?

Electrical Calibration

- Current clamps and clamp meters up to (1000 A)
- Handheld and bench oscilloscopes
- Analog and digital meters (like Voltmeter, Ammeter, frequency meter, Micro ohm meter, Multimeters etc.)
- Digital Thermometers
- Watt meters, Power harmonics analyzers
- Hipot/High Voltage testers, Megohm meters
- Continuity testers, Loop Impedance testers
- Leakage Current testers etc.

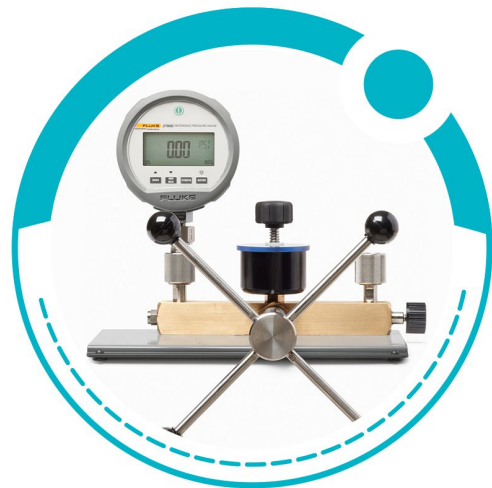

Temperature and Humidity Calibration

- Industrial PRTs. Thermocouples and RTDs.
- Dry Blocks, Temperature bath.
- Ovens, Incubators.
- Data logger.
- Temperature / Humidity indicator
- Temperature Transmitters.
- Digital Thermometers.
- Temperature Recorders.
- Temperature Sensors with indicator.

Pressure Calibration

(Vacuum, pneumatic and hydraulic Pressure gauge)

- Pressure Transducers
- Pressure Gauges
- Pressure Transmitters
- Pressure Recorders.
- Pressure Switches.

Mechanical & Force Calibration

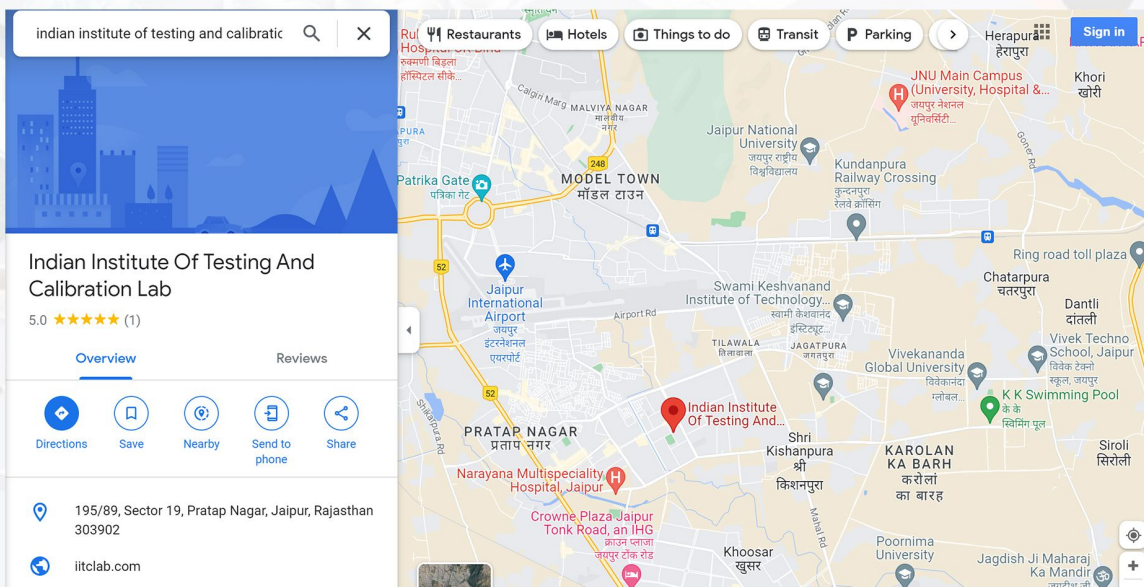

Tensile and Compression Force Machine, Vernier caliper, cube mould, Depth gauge, dial thickness, height gauge, micrometer, measuring scale and tape, test sieves, ultrasonic thickness gauge, Weighing scale, Timer Temperature Simulation (indicator/controller/Recorder/Data logger/Scanner) Tachometer (contact type and non contact type) Etc

Company Accreditation

Indian Institute of Testing and Calibration Lab, Jaipur Management System is established to comply with ISO/IEC 17025:2017 and ISO 9001:2015 requirement and fully implemented.
